

Disassembling and rinsing the Professional Cappuccino Frother

- ▶ Carefully remove the frother from the Connector System[®] by twisting slightly.
- ▶ Dismantle the frother completely.
- ▶ Rinse all the frother parts thoroughly under running water.
- ▶ Reassemble the frother.

i Ensure that the individual parts are correctly and firmly attached to one another to ensure optimum function of the frother.

- ▶ Firmly attach the frother to the Connector System[®].
